*If the height and weight exceed the above guidelines, it is required to get the following measurements in addition to the height and weight:

Chest
Hip
Sleeve length

These measurements need to be on the order form in special instructions.

*A wheelchair gown is a custom-made gown that opens in the back with a zipper in the front. This requires the following measurements:

Chest
Arm length
Height, if applicable

*A gown for a pregnant customer is typically treated as normal. You will have to check with the customer to see how far along they will be for the ceremony. When the customer gives you their height and weight, check the chart above. If they are in a regular, they may need to go up to a *1, but in the same height range. If they are in a *1, they may need to go up to a *2. Please note this in special instructions on the order.
